US weather systems hacked by Chinese: Report

CNBC - 1 hour ago

Please check back for further updates. Chinese hackers allegedly broke into U.S. **weather** systems in September, The Washington Post reported. Federal cybersecurity forces had to seal off sensitive data on disaster planning and more in response to the hack, ...

Chinese hack US Weather systems, satellite network

Washington Post - 1 hour ago

Hackers from China breached the federal **weather** network recently, forcing cybersecurity teams to seal off data vital to disaster planning, aviation, shipping and scores of other crucial uses, officials said. The intrusion occurred in late September but officials ...

Weather satellite data hack and outage: Why this matters for forecasting

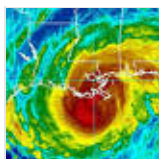

Washington Post (blog) - 22 minutes ago

NOAA's Satellite Data and Information Service network was hacked in September, and to respond, an important data feed for **weather** forecasts was taken out of commission for two days in October while NOAA conducted "unscheduled maintenance" to ...

Chinese hackers attack National Weather Service

The Week Magazine - 33 minutes ago

The National Oceanic and Atmospheric Administration (NOAA) announced Wednesday that hackers have breached the government's **weather** network, including the National **Weather** Service. The attack apparently happened in September, but officials didn't ...

Chinese Forced U.S. Weather System Off

Daily Beast - 44 minutes ago

Back in October, when the National Oceanic and Atmospheric Administration announced it was doing "unscheduled maintenance" on its network, it did not disclose that it was because the Chinese had hacked in a month earlier. While the agency has not ...

US weather agency reports cyber attacks on four websites

Thomson Reuters Foundation - 31 minutes ago

WASHINGTON, Nov 12 (Reuters) - The U.S. agency that operates the National **Weather** Service said on Wednesday four of its websites were hacked in recent weeks. National Oceanic and Atmospheric Administration staff "detected the attacks and incident ...
